Travels with Dawn Wilson, Wildlife Photographer To Speak at October Meeting

by Tony Pariso

programs@lps.cc

Professional writer and photographer, Dawn Wilson, will be sharing insights into photographing wildlife in the fall. She will share her specialization in taking photos in the high latitudes and altitudes of the Rocky Mountains and Alaska. Her photographs will feature travels to rustic locations and share the individual stories of the animals that she finds in mysterious and cold climates.

Dawn has been a full time professional wildlife photographer since 2013 but her passion for photography goes back, in her words, "forever". She has just become a full time traveling photographer, living in her RV, and traveling the USA to photograph and write about North American wildlife. Her amazing adventures are featured in a monthly travel column the she writes in the Fort Collins Coloradoan.

She moved to Colorado in 2002 and is originally from New Jersey. Dawn earned a BA in Communications from Rowan University, an MBA in marketing from Temple University, and studied photography and computer graphics at the Art Institute of Colorado and University of the Arts, respectively

Her work can be found in galleries and collections around North America. It has also been published in a variety of magazines, books and calendars such as National Geographic Digital, Outdoor Photographer and other noteworthy sources. Join her on a photographic journey. View captivating imagery of exotic animals in

beautiful places. Find inspiration as you learn from her vast experience and expertise.

Check out Dawn's website in preparation for her program www.dawnwilsonphotography.com . I think you'll be as excited as I am to hear about her photography and her adventures.

Board Member Election

by Bill Standerfer

newsletter@lps.cc

We will be holding the annual election of LPS officers and board members in a few months. Many of the current board members have served for several years and will not be running again. We need your help to fill these positions. If you have any interest in taking over a board position, please contact any board member or send an email to me at newsletter@lps.cc. You can view the job descriptions of each board position on the LPS website.

As I'm sure you all know, a club like this does not run itself. There are finances to manage, member lists to maintain, newsletters to write, and a host of other details. None of these jobs is difficult, and, spread around to several people, like our board, the workload is minimal on any one person. However, if no one steps up to help, there won't be an LPS. Please give it some thought and volunteer a little time if you can. ***It's up to you to make it happen!***

Nikon D800/D810 SIG

by Bill Standerfer

newsletter@lps.cc

The new D800/D810 special interest group has an excellent start with ideas on where we want the SIG to go. The primary focus will be on education and sharing what we've learned about the camera.

Future meetings will be held on the second Wednesday of each month from 6:30PM until 8:30PM. We will meet at the Daz Bog coffee shop in Loveland at 556 North Lincoln.

If you have a D800/D810 or have an interest for a possible future purchase, please join us. If you have any questions, contact Don Reilly at nikon.don@comcast.net or me at bill@billstanderferphoto.com.

The View From The Hill

by Bill Standerfer

newsletter@lps.cc

This is the last newsletter that I will publish. Too much going on right now to continue. That means that we need a new editor for this newsletter. If you have any interest in taking it over, please let me know. If no one steps up, then there won't be a newsletter.

A special thanks to new member Rich Bilancia for taking over the website. I'll be in the wings helping him learn his way around. All the pointers will be changed to point to him instead of me. Thanks again, Rich!

Adios and see you around the tripod.

Special Interest Groups

by Bill Standerfer

newsletter@lps.cc

Special Interest Groups (SIGs) are a way for a group of members with interest in a certain subject to get together and discuss, photograph, and learn together. It could be anything photographic, from macro to landscapes, printing to birds. If you have a peaked interest in some subject and want to start a SIG, let me or someone else on the board know and we'll publize it for you. ***It's up to you to make it happen!***
